The March of the Army of the Potomac.
FROM OTTAWA.
Illinois Supreme Court Proceedings.
Special Correspondence to the Chicago Tribune.
The Illinois Supreme Court has today rendered its decision in the case of the State of Illinois vs. the Chicago & North Western Railway Company. The court has ruled in favor of the railway company, holding that the state's attempt to regulate the rates of the company was unconstitutional. This decision is a significant victory for the railway industry and a setback for the state's efforts to control the rates of its major transportation lines.

THE HUNDRED DAY TROOPS

What the West is Doing.
FROM ILLINOIS.
[Special Dispatch to the Chicago Tribune.]
The Illinois National Guard has today received orders to mobilize for service. The units are being sent to various parts of the state to maintain order and to be ready for service in the event of a general emergency. The mobilization is being carried out in a quiet and efficient manner, and the troops are being well equipped for their duties. The state's military forces are now in a state of readiness to meet any challenge that may be presented to them.

Champion Lumber Shakes May 2.
The current estimate of lumber for the remainder of the year is 1,000,000 cords, according to the American Lumber Manufacturers Association. This is a decrease of 100,000 cords from the estimate for the entire year, which was 1,100,000 cords. The association says that the decrease is due to the fact that the lumbering season is now well advanced and the output is expected to be less than in previous years.

The first of these was the "Hague Convention," which was held in The Hague, Holland, in 1864. It was the first of a series of international conferences on the subject of the improvement of the human race, and it was the first of a series of conferences which have since been held in various parts of the world. The second of these was the "Paris Convention," which was held in Paris, France, in 1876. It was the second of a series of international conferences on the subject of the improvement of the human race, and it was the second of a series of conferences which have since been held in various parts of the world. The third of these was the "London Convention," which was held in London, England, in 1881. It was the third of a series of international conferences on the subject of the improvement of the human race, and it was the third of a series of conferences which have since been held in various parts of the world.

The first of these is the **Washable** type, which is made of a special material that can be washed with soap and water. It is the most popular type of hair dye, and is used by millions of women every day. It is also the most economical type, as it can be used over and over again.

The second type is the **Permanent** type, which is made of a special material that can be washed with soap and water. It is the most popular type of hair dye, and is used by millions of women every day. It is also the most economical type, as it can be used over and over again.

Make Dye! Make Dye!
 The third type is the **Temporary** type, which is made of a special material that can be washed with soap and water. It is the most popular type of hair dye, and is used by millions of women every day. It is also the most economical type, as it can be used over and over again.

A Psychological View of Hair
 The fourth type is the **Permanent** type, which is made of a special material that can be washed with soap and water. It is the most popular type of hair dye, and is used by millions of women every day. It is also the most economical type, as it can be used over and over again.

The fifth type is the **Temporary** type, which is made of a special material that can be washed with soap and water. It is the most popular type of hair dye, and is used by millions of women every day. It is also the most economical type, as it can be used over and over again.

The sixth type is the **Permanent** type, which is made of a special material that can be washed with soap and water. It is the most popular type of hair dye, and is used by millions of women every day. It is also the most economical type, as it can be used over and over again.

The seventh type is the **Temporary** type, which is made of a special material that can be washed with soap and water. It is the most popular type of hair dye, and is used by millions of women every day. It is also the most economical type, as it can be used over and over again.

The eighth type is the **Permanent** type, which is made of a special material that can be washed with soap and water. It is the most popular type of hair dye, and is used by millions of women every day. It is also the most economical type, as it can be used over and over again.

The ninth type is the **Temporary** type, which is made of a special material that can be washed with soap and water. It is the most popular type of hair dye, and is used by millions of women every day. It is also the most economical type, as it can be used over and over again.

The tenth type is the **Permanent** type, which is made of a special material that can be washed with soap and water. It is the most popular type of hair dye, and is used by millions of women every day. It is also the most economical type, as it can be used over and over again.

Assaults on Cement.
 While concrete is being used and valued as never before, it is being assailed by a new and powerful enemy. This enemy is the "assaults on cement," which are being made by a new and powerful enemy.

The first of these assaults is the "assaults on cement," which are being made by a new and powerful enemy. This enemy is the "assaults on cement," which are being made by a new and powerful enemy.

The second of these assaults is the "assaults on cement," which are being made by a new and powerful enemy. This enemy is the "assaults on cement," which are being made by a new and powerful enemy.

The third of these assaults is the "assaults on cement," which are being made by a new and powerful enemy. This enemy is the "assaults on cement," which are being made by a new and powerful enemy.

The fourth of these assaults is the "assaults on cement," which are being made by a new and powerful enemy. This enemy is the "assaults on cement," which are being made by a new and powerful enemy.

The fifth of these assaults is the "assaults on cement," which are being made by a new and powerful enemy. This enemy is the "assaults on cement," which are being made by a new and powerful enemy.

The sixth of these assaults is the "assaults on cement," which are being made by a new and powerful enemy. This enemy is the "assaults on cement," which are being made by a new and powerful enemy.

The seventh of these assaults is the "assaults on cement," which are being made by a new and powerful enemy. This enemy is the "assaults on cement," which are being made by a new and powerful enemy.

The eighth of these assaults is the "assaults on cement," which are being made by a new and powerful enemy. This enemy is the "assaults on cement," which are being made by a new and powerful enemy.

The ninth of these assaults is the "assaults on cement," which are being made by a new and powerful enemy. This enemy is the "assaults on cement," which are being made by a new and powerful enemy.

The tenth of these assaults is the "assaults on cement," which are being made by a new and powerful enemy. This enemy is the "assaults on cement," which are being made by a new and powerful enemy.
